Color : Another major technological development was the introduction of natural color, which meant color that was photographically recorded from nature rather than added to black-and-white prints by hand-coloring, stencil-coloring or other arbitrary procedures, although the earliest processes typically yielded colors which were far from natural in appearance.citation needed While the advent of sound films quickly made silent films and theater musicians obsolete, color replaced black-and-white much more gradually.citation needed The pivotal innovation was the introduction of the three-strip version of the Technicolor process, first used for animated cartoons in 1932, then also for live-action short films and isolated sequences in a few feature films, then for an entire feature film, Becky Sharp, in 1935. The expense of the process was daunting, but favorable public response in the form of increased box office receipts usually justified the added cost. The number of films made in color slowly increased year after year.

Education and propaganda Main articles: Educational film and Propaganda film. Film is used for a range of goals, including education and propaganda. When the purpose is primarily educational, a film is called an educational film. Examples are recordings of academic lectures and experiments, or a film based on a classic novel. Film may be propaganda, in whole or in part, such as the films made by Leni Riefenstahl in Nazi Germany, US war film trailers during World War II, or artistic films made under Stalin by Sergei Eisenstein. They may also be works of political protest, as in the films of Andrzej Wajda, or more subtly, the films of Andrei Tarkovsky. The same film may be considered educational by some, and propaganda by others as the categorization of a film can be subjective.

On October 3, after No Time to Die was delayed until April 2021, it was reported that

Cineworld was considering suspending the operations of all of its cinemas in the UK and Ireland, and most US Regal Cinemas indefinitely, citing the lack of tentpole releases as impacting its business.¹⁸⁶¹⁸⁷¹⁸⁸ The company confirmed the move on October 5, with CEO Mooky Greidinger stating that it was too expensive to continue operating its cinemas without a consistent lineup of new releases having initially planned to hold out until *No Time to Die* was released, and argued that the continued closure of cinemas in the state of New York has made studios reluctant to release films due to the underperformance of *Tenet*.¹⁸⁹ The closures excluded seven Regal locations in California that had recently been allowed to reopen.¹⁹⁰
